

MVS PRICING

*National Rate Average: \$35-\$60 for 30mins, \$100-\$200 for 60mins

MVS offers a subscription pricing structure to allow a deeper relationship with clients/students. Though I meet with my clients on a weekly basis, my service is more than just a meeting for 30-60 minutes. My clients get access to my vast knowledge and research in vocal study. They also get live performance opportunities and a community of other singers and musicians. My goal truly is to help others discover their authentic voice through building healthy habits and vocal exercise. Even when students stop or pause lessons they will have access to free content on the MVS Student Squad Facebook Group. I am there for my students as a teacher, as a mentor and as a fellow music collaborator.
